

Official Visual Identity Standards

LERNOVIQ AI TECHNOLOGIES PRIVATE LIMITED

Intelligence. Amplified.

Version	Release
1.1	**October 2026**

Official domains: www.lernoviq.com • www.lernoviq.in

1. Logo System

The primary logo is preferred. The secondary mark is permitted only when the full lockup cannot be used legibly.

1.1 Primary Logo

Use for:

- Corporate website and landing pages
- Proposals, presentations and official documents
- Marketing collateral and social creatives
- Contracts, invoices and partner communication

The legal company name and tagline form part of the approved full lockup.

1.2 Secondary Mark

Use only when:

- Available space is too compact for the primary logo
- Mobile or responsive layouts require a more compact brand lockup
- A square or vertical brand treatment is more appropriate

Required construction: L emblem + “LERNOVIQ” wordmark below. The L emblem must not be used by itself.

Important: There is no approved symbol-only logo in v1.1. Do not separate the L emblem from the LERNOVIQ wordmark.

Official tagline

Intelligence. Amplified.

Use the punctuation exactly as shown: one period after each word. Do not use ellipses or an exclamation mark.

2. Brand Colors & Typography

Use these colors consistently. Do not recolor the approved logo artwork.

Navy #0A1F54 Primary text / wordmark	**Blue** #0066FF Core emblem gradient	**Cyan** #00E5FF Emblem accent
Green #00D951 Leaf & Q tail accent	**Red** #FF0000 Approved I and Q	**White** #FFFFFF Primary background

Color application rules

- Keep the L emblem in its approved blue-to-cyan gradient with the green leaf accent.
- Keep LERNOV in navy. Keep the approved “I” and “Q” in plain red, with the Q tail in green.
- Do not create alternate seasonal, monochrome, neon, metallic or rainbow versions without formal brand approval.
- White is the preferred presentation background. Very light neutral backgrounds may be used when contrast remains strong.

Typography

Brand documents & digital UI

- Preferred family: Aptos / Arial / a clean geometric sans serif
- Use clear hierarchy, generous spacing and high contrast
- Avoid decorative scripts for corporate communication

Logo typography

- The wordmark is custom artwork—not editable body text
- Never retype LERNOVIQ using a substitute font
- Always use supplied approved logo artwork

3. Clear Space, Minimum Size & Backgrounds

Protect legibility by preserving space, scale and contrast.

3.1 Clear Space

Maintain a minimum clear space around every approved logo lockup equal to X, where X is the height of the smallest square motif in the L emblem. No text, borders, icons or imagery may enter this area.

PRIMARY LOGO

SECONDARY MARK

3.2 Minimum Size

Lockup	Print	Digital
Primary logo	40 mm	120 px
Secondary mark	20 mm	96 px

Below these sizes, do not improvise a symbol-only version. Increase the available space or omit the logo.

3.3 Background Usage

White	Very light neutral	Dark navy
Preferred	Acceptable	Only with an approved high-contrast/reversed artwork

4. Logo Do’s & Don’ts

Consistency protects recognition, trust and trademark distinctiveness.

✓ DO

- Use the primary logo whenever space allows.
- Use the secondary mark only as L emblem + LERNOVIQ wordmark below.
- Maintain the approved proportions, colors and spacing.
- Use high-resolution PNG for raster needs and approved vector artwork for scalable production.
- Use white or very light neutral backgrounds wherever possible.
- Keep the tagline exactly as “Intelligence. Amplified.”
- Use lowercase domains in digital copy: www.lernoviq.com and www.lernoviq.in.

✕ DON’T

- Do not use the L emblem by itself.
- Do not stretch, squeeze, skew, rotate or distort the logo.
- Do not recolor, swap gradients or change the red/green accents.
- Do not retype or rebuild the LERNOVIQ wordmark using another font.
- Do not place the logo over busy photography or low-contrast backgrounds.
- Do not add shadows, outlines, glow, bevels or other effects.
- Do not crop the approved lockups or rearrange their elements.

Not approved: symbol-only use

L emblem alone — NOT APPROVED

Approved compact treatment — L + LERNOVIQ

5. Digital Applications & Asset Guidance

Use the appropriate lockup for each context. Never create an unapproved derivative.

Website header	Mobile / compact header	App tile / social avatar
		
Primary logo Use on desktop and wider responsive headers.	**Secondary mark** Use when the primary logo cannot remain legible.	**Secondary mark** Use only where the L + LERNOVIQ lockup remains readable; do not use L alone.

5.1 Recommended File Formats

Format	Use	Guidance
SVG	Website / responsive UI	Preferred scalable format when approved vector master is available.
PNG	Presentations / documents / web	Use transparent-background exports at sufficient resolution.
WebP	Web performance	Use optimized raster exports for websites.
PDF/EPS/AI	Print / production	Use approved production artwork only; do not auto-trace the logo.

5.2 Naming & Domain Usage

- Legal company name: LERNOVIQ AI TECHNOLOGIES PRIVATE LIMITED
- Brand name in logos/headlines: LERNOVIQ
- Website domains: www.lernoviq.com and www.lernoviq.in (keep “lernoviq” lowercase in domain text)
- Official tagline: Intelligence. Amplified.
